Thank you so much for your interest in carrying the products of ZEN CHIC in your store. You are very welcome as a new customer. For selling ZEN CHIC products you must be a valid retailer (have an established store or web store) to order on a wholesale basis.

So please give us some details about your business:

Do you have an established store or an online shop?

(Name, Address or website)

Please fax a copy of your retailer business employer identification number for our records (+49 -3212-1183065)

Please visit our website for wholesale information (US and International). You will understand that in order to support and protect the retailers who carry our products we need to research our new retailer inquiries. Once we receive the information requested above, we can set up your wholesale retailer account.

We are delighted and looking forward to do business with you!

Kindest
Brigitte Heitland
